

SUSTAINABILITY REPORT: SDG 3

2025

BAKU EURASIAN UNIVERSITY

The United Nations' 17 Sustainable Development Goals (SDGs) are at the heart of the 2030 Agenda for Sustainable Development adopted by all United Nations Member States in 2015. They are the blueprint for all developed and developing countries to tackle the global challenges, starting from ending poverty and eliminating all deprivations, providing equal access to resources by all, spurring economic growth fighting climate change and preserving the land and the sea. Universities have a unique role in creating and disseminating knowledge, yet as one of the leading universities in Azerbaijan, BAAU extends its mission to cover community service as well as education and research. BAAU aims to fulfill all SDGs through research, teaching and outreach activities, sustainable campus operations and collaborations with the stakeholders. BAAU introduced its sustainability website (<https://sdg.baau.edu.az/en>) in August 2024 along with the University's first Sustainability Reports. Baku Eurasian University in Azerbaijan is setting the example by putting sustainability at the core of the institution. In fact, by viewing its responsibility toward these global goals, BAAU understands its role in achieving SDGs, including education, research, community engagement, and operational practices.

Baku Eurasian University is ranked in the **1001 - 1500** category for **SDG 3** (Good Health and Well-being) in the 2025 edition of the Times Higher Education Impact Rankings.

Ensure healthy lives and promote well-being for all at all ages

Number of graduates: 591

Baku Eurasian University (BAAU) maintains current collaborations with local health institutions to improve health and wellbeing outcomes for staff, faculty, students and the wider community. Through these partnerships, BAAU facilitates health awareness programs, medical consultations, and wellbeing initiatives, ensuring access to essential health services and promoting a culture of physical and mental wellbeing on campus and in the local community.

BAAU delivers outreach programs and community projects aimed at improving health and wellbeing in the local community. These initiatives include student volunteering programs, workshops, and awareness campaigns covering topics such as hygiene, nutrition, physical activity, sports, mental health, and healthy aging. Through these programs, BAAU promotes preventive health practices, wellbeing education, and active community engagement, contributing to the overall health of students and local residents.

BAAU provides students with access to sexual and reproductive health-care services, including information, education, and counseling. These services aim to raise awareness about reproductive health, family planning, and safe practices, ensuring that students are well-informed and supported in making healthy and responsible choices. This initiative contributes to the university's broader commitment to student wellbeing and health education.
